

Policy 4.6

Trimester Internship Placements

For those students placed in schools which operate on the trimester system, the following policy applies.

Secondary Education students are required to complete a full semester (18 week) internship. The student may either:

- 1) complete 18 weeks of the trimester; or
- 2) complete two trimesters.

If an individual school or teacher stipulates that they will accept a student only if they can do one trimester, the Office of Field Experiences will refer this request to the Secondary Education Department Chair. A decision whether to accept such a placement will be made on a case-by-case basis, depending on the qualifications of the individual student.
