# GRADUATE PLAN OF STUDY

**This Plan of Study must be completed within the first quarter of graduate study at WWU. The student and advisor will receive a copy when the Plan is approved. List the courses you wish to count toward your degree. Enrolling in a course which is not on your Plan, and which has not been approved through the amendment process, may mean the course will not count toward your degree. Please confer with your program advisor and the Graduate School regarding any subsequent changes to this Plan, PRIOR to enrollment in any course not listed and approved on your Plan. For option I students, enrolling in thesis credits beyond the maximum number required for the degree may affect your eligibility for financial aid. Note: Limit of 10 credits at the 400 level. Limit of 10 credits of Independent Study (some departments are more restrictive). Attach Prerequisite Courses on separate list. This information may be shared with the Financial Aid office for financial aid purposes.**
